

FULL SET LIST (Updated October, 2011)

What is a 'Mash-up Band'?

Though In10City is a true variety band, capable of a wide range of genres, the concept that makes them unique is their specialization in 'Mash-ups'. Typically, a band will cover 14-16 songs in a one-hour set. On the other hand, a great DJ will spin 30-40 songs per hour, by hitting the most recognizable pieces of songs, and by layering songs on top of one another, in a non-stop, high energy set that keeps the dance floor moving. In10City brings that pace and energy to the live music stage. Sure, it's a lot more work for the arrangers and musicians, but we think it's worth it!

The set list below details the In10City Mash-up arrangements, and includes a list of the songs that comprise each Mash-up. In10City Mash-ups range from 7-12 minutes in length, and are creatively designed to include the most recognizable, 'sing-along' portions of all the songs you love. *In10City has an ever-growing list of songs that are performed in their entirety as well. These songs are listed below the Mash-up section by category.*

In10City Signature Mashups:

- ▶ **Let It Rock**
